[^] Bandwidth specification refers to network specifications of the services subscribed to for the broadband line connected from the modem at your premises to the first piece of NETVIGATOR network equipment or central office. For 2x1000M Multi-Use Broadband Service, bandwidth specification corresponds to a maximum downstream bandwidth of 2Gbps and maximum upstream bandwidth of 1Gbps (by two passive optical network modem ports of up to 1Gbps each). Actual speed experienced using the service will be less than the network specification and affected by your device, technology, network and software used, network configuration and coverage, usage levels, international bandwidth and extraneous factors.
